

Reference for LEONARDO 13 SRL.

Mega Flex A/S had the extraordinary pleasure of collaborating with Leonardo during one of the most complex and demanding projects we have ever undertaken – the Metro M5 project in Copenhagen, from 2022 to 2024. Leonardo provided no less than 45 highly skilled and experienced Italian stonemasons, whose remarkable expertise and dedication to their craft were instrumental in completing the project on time and to the exceptional quality standards that were required.

From day one, it was evident that Leonardo and their team operated at a highly professional level. Each of the 45 stonemasons possessed unique craftsmanship, and they consistently transformed their skills into outstanding results. Their work with the granite stones was both precise and beautifully executed, balancing functionality with aesthetics in a way that left us truly impressed. It was a pleasure to witness how they could turn complex challenges into elegant solutions that met – and even exceeded – our expectations.

Moreover, Leonardo's team demonstrated an admirable level of collaboration. They worked seamlessly with our own staff and other subcontractors on the project. Their ability to communicate effectively, both internally and externally, fostered a harmonious working environment, which ultimately contributed to a more efficient and smoother workflow. Despite the inevitable challenges that come with a project of this scale, their perseverance, sense of responsibility, and commitment were nothing short of impressive.

Another key point worth highlighting is Leonardo's ability to deliver within the agreed timelines without ever compromising the quality of the finished product. Deadlines were always met, and their work was executed with the utmost care and attention to detail. This was one of the most critical factors in the success of this large-scale project.

At Mega Flex A/S, we are extremely satisfied with our collaboration with Leonardo and can wholeheartedly give them our highest recommendation. They are not just providers of labor – they are invaluable partners who bring exceptional quality, pride in their craft, and outstanding workmanship. We look forward to the opportunity to work with them again in the future and can strongly recommend them to anyone seeking a reliable and skilled partner in stone masonry and construction.

Best regards,
Kim Bang
Director, Mega Flex A/S
